Professional Summary

Goal-oriented Web Developer with a strong commitment to collaboration and solutions-oriented problem-solving. Use various web design software to develop customer-focused websites and designs. Committed to high standards of web design, user experience, usability, and speed for multiple types of end-users. Successful at maintaining customer satisfaction through effective customer support.

Web developer with 1.5 years of experience designing websites and

specialized content management systems. After graduation, I'm looking for a developer position.

Proven experience using HTML, CSS, JS, PHP, and WordPress to create consumer-focused websites.

I'd like to work for a company that promotes best practices and offers a variety of customer projects.
